

Energy Efficiency & Renewable Energy

Federal Fleet Files

Vol. 2, No. 10 – September 2010

Highlighting the latest news and developments affecting Federal fleets.

FedFleet 2010: Showcasing Achievement, Success, and Partnerships

FedFleet 2010 was a resounding success with 1,613 attendees, 180 exhibitors, and 78 vehicles on display in the exhibit hall. Attendees were given the opportunity to learn from U.S. Department of Energy (DOE) officials who facilitated and presented in 14 workshops. *Overview of E.O.* 13514 and Fleet Master Guidance/Handbook, Foundation for Success: Building Fuel Infrastructure Partnerships, and Hot Topics in Federal Fleets gave Federal fleet professionals the information and resources to help them meet Federal mandates.

Attendees were also able to attend two extended workshops that brought them together with alternative fuel providers in *The Fuel Up Project:*

Federal Fleet Files Contact

The FEMP Federal fleet team continually strives to increase outreach to Federal fleet managers. This publication provides updates on regulatory issues and reporting deadlines, highlights success stories and best practices, promotes upcoming events, and informs fleets on the expanding availability of alternative fueling stations. For comments or to subscribe to Federal Fleet Files, contact Ryan Daley at *ryan.daley@nrel.gov*.

Alternative Fuel Infrastructure Development with Industry Representatives. These workshops focused on helping attendees improve fleet management and incorporate alternative fuels into fleet programs.

A DOE electric vehicles (EVs) workshop covered the basics of owning and operating EVs. Another workshop aimed to help agencies "get to green" on their Office of Management and Budget (OMB) Transportation Scorecards. This workshop included officials from OMB and provided attendees with the opportunity to speak directly to those who oversee their agency programs. DOE and General Services Administration's (GSA's) Federal Acquisition Service (FAS) also taught three workshops on green vehicle acquisitions to help agencies find the right green vehicle to meet their mission.

Copies of presentations provided in the workshops listed above are available by contacting Ryan Daley at the National Renewable Energy Laboratory (NREL) at *ryan.daley@nrel.gov*.

Save the Date: 2010 Regional EPAct Workshops

The DOE State and Alternative Fuel Provider Fleets Program is sponsoring a series of Regional EPAct Workshops in 2010. The workshops provide technical, regulatory, and networking support to assist EPAct-regulated fleets and alternative fuel stakeholders in overcoming alternative fuel deployment barriers.

The next 2010 Regional EPAct Workshops will be held Thursday, September 16 in San Francisco, California and Thursday, October 14 in Boston, Massachusetts. Federal agencies should provide point of contact information in the San Francisco and Boston areas to Ryan Daley at *ryan.daley@nrel.gov*. Workshop information and updates are available at *www.eere.energy.gov/ vehiclesandfuels/epact/workshops.html*.

Fleet Technical Assistance Programs

A call for fleet technical assistance projects and a data call will be announced soon. The objective of these programs is to assist Federal fleets in more effectively using tax dollars to meet or exceed Federal fleet requirements while meeting mission needs. Stay tuned for updates on these opportunities.

Upcoming Conferences

The GreenGov Symposium, held October 5–7 at The George Washington University in Washington, D.C., will bring together leaders from Federal, state, and local governments; nonprofit and academic communities; and the private sector to identify opportunities around greening the Federal Government. More information is available at www.gwu.edu/explore/aboutgw/ eventscalendars/greengov.

At GOVGreen 2010, November 9–10 in Washington, D.C., attendees will find the resources, education, networking, and handson training needed to green government operations and management. More information is available at www.govgreen.org/ GOVgreen2010/public/enter.aspx.

FEDERAL ENERGY MANAGEMENT PROGRAM

Alternative Fuel Finder

NREL maintains a database of alternative fueling stations nationwide through the DOE Alternative Fuels and Advanced Vehicles Data Center (AFDC). The list below shows new alternative fueling stations added to the database since last publication. Unless otherwise noted, only open, publicly accessible stations are included. Stations accept Wright Express (W) and Voyager (V) fleet payment cards unless otherwise noted. Check the AFDC Alternative Fueling Station Locator for up-to-date information: www.afdc.energy.gov/afdc/locator/stations/.
